CLINMASTERS

MESSAGE FROM CHIEF MENTOR

DR ANMOL S. KALHA
MDS, Col (Retd.) AD Corps

Welcome to ClinMasters!

It gives me immense pleasure to introduce our center for clinical excellence.

We are a team of experienced clinicians who stand committed to enhance your clinical skills.

All our training programs are clinically driven, based on interactive & hands on teaching learning experience – Tell Show and Do Methodology.

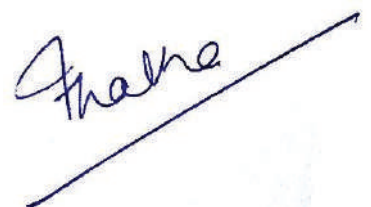

We offer long term & short term courses for young and experienced professionals.

We understand that there is a huge gap between the skill set you need to have as a clinician and what you learn as a part of your college curriculum.

We bridge the gap between what you have learnt/what you know and what you need to know to achieve clinical success in your practice.

We are here to upskill you in contemporary practices and make you ready for a successful career.

We look forward to welcome you.

COURSE LEAD

Dr. Aditya Chaudhary

MDS – Prosthodontics

10 years + Experience

ClinMasters is a part of ITS Education Group which has 25 years + of strong standing in the field of dental education.

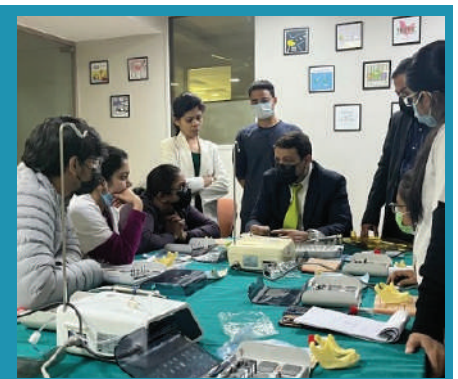

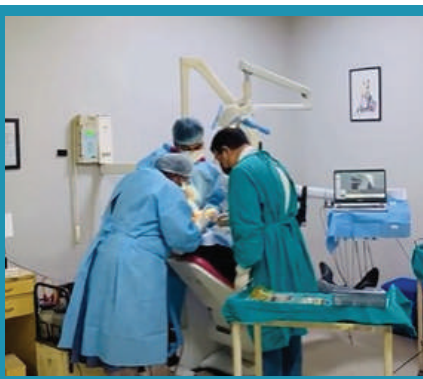

Facilities at ClinMasters

We have a state of the art center with following facilities for course participants:

- Simulation Labs
- Dedicated Clinical Area for supervised patient work

Highlights of Our Courses

- 100% Clinically driven courses
- Maximum Patient Work
- Nationally & Internationally Acclaimed Clinicians
- Limited Seats for Effective Learning
- Live Demonstrations
- Latest Instruments, Materials & Technologies

CLINICAL PROSTHODONTICS

About The Course

THERE ARE 3 MODULES IN THIS COURSE:

Module 1: Removable Partial Dentures (RPD)

Module 2: Complete Dentures (CD)

Module 3: Fixed Partial Dentures (FPD)

Course Learning Outcomes

The participant will be able to do the following prosthodontic procedures on course completion:

- Give removable partial dentures
- Give complete dentures
- Give fixed partial dentures

COURSE CONTENT

MODULE 1 – REMOVABLE PARTIAL DENTURES (RPD)

Clinical/Case Based Discussions: different types of RPD, which RPD is given in which type of case, designing, taking primary/final impressions: which impression materials to use, recording jaw relation, try in & denture delivery.

This is followed by allotment of 1 RPD case to the participant.

MODULE 2 – COMPLETE DENTURES (CD)

Clinical/Case Based Discussions: Conventional denture: taking primary/final impressions: which impression materials to use, recording jaw relation, try in & denture delivery. Denture Repair, Relining & Rebasing.

This is followed by working on 1 CD patient by the participant.

MODULE 3 – FIXED PARTIAL DENTURES (FPD)

Clinical/Case Based Discussions: procedure to prepare all ceramic & porcelain fused to metal (PFM) crown - for anterior & posterior teeth.

Principles of crown preparation: preservation of tooth structure, resistance and retention form, structural durability, marginal integrity. Types of finish lines and types of burs used during crown preparation.

Giving temporary crowns (chair side and lab), Crown removal

Hands on by participants on typhodonts: Crown preparation

This is followed by allotment of 2 FPD patients to the participant.
