## CLINMASTERS

### MESSAGE FROM CHIEF MENTOR

**DR ANMOL S. KALHA**  
MDS, Col (Retd.) AD Corps

Welcome to ClinMasters!

It gives me immense pleasure to introduce our center for clinical excellence.

We are a team of experienced clinicians who stand committed to enhance your clinical skills.

All our training programs are clinically driven, based on interactive & hands on teaching learning experience – Tell Show and Do Methodology.

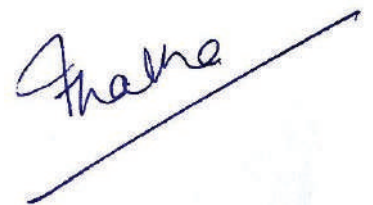

We offer long term & short term courses for young and experienced professionals.

We understand that there is a huge gap between the skill set you need to have as a clinician and what you learn as a part of your college curriculum.

We bridge the gap between what you have learnt/what you know and what you need to know to achieve clinical success in your practice.

We are here to upskill you in contemporary practices and make you ready for a successful career.

We look forward to welcome you.

## **COURSE LEAD**

**Dr. Mousumi Goswami**  
**MDS Pediatric Dentistry**

**15 years + Experience**

**Trained 4000+ Dentists**

**Guided 10,000+ Pediatric Procedures**

ClinMasters is a part of ITS Education Group which has 25 years + of strong standing in the field of dental education.

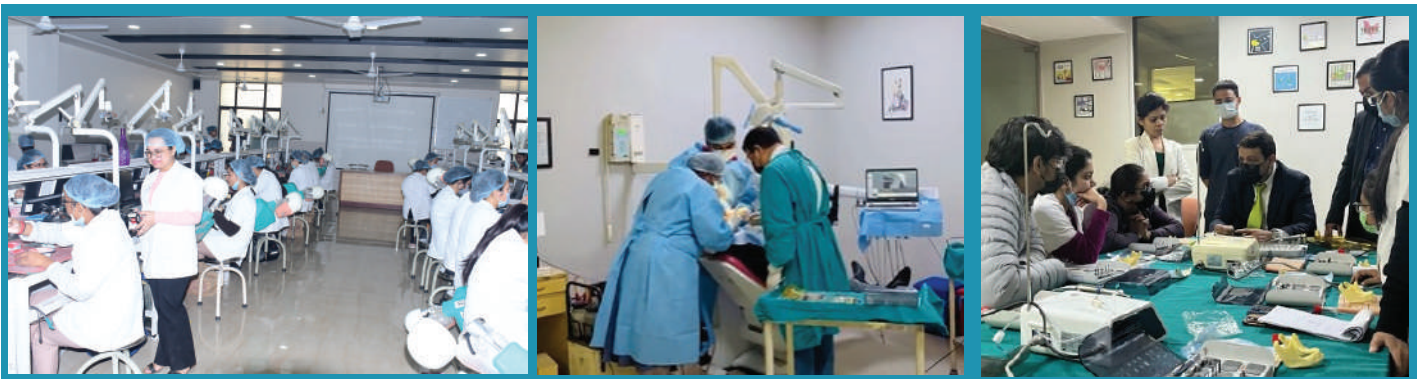

## Facilities at ClinMasters

We have a state of the art center with following facilities for course participants:

- Simulation Labs
- Dedicated Clinical Area for supervised patient work
