## KEY FEATURES

**100% CLINICAL WORK ON PATIENTS**

**BASIC TO ADVANCED PROCEDURES**

**SMALL BATCH SIZE**

## 3 COURSES:

- Comprehensive Oral Implantology
- Mastership Oral Implantology
- Advanced Oral Implantology

## Modules Covered:

- Foundation Module
- Surgical Module
- Advanced Case Observation Module

## Course Highlights:

This is the right course for you if you are looking at **enhancing your clinical practice** and if you want to **build a high revenue practice**.

You will be able to do **implant planning, place implants and give implant prosthesis independently** post training.

This course ensures a **very high return on your investment** – you will be able to recover all or most of your course fee by placing just the first 2-3 Implants in your clinical practice!

You are **trained by implantologists with 5 years + implant experience** and in **small batch size - maximum 5 participants per batch to ensure effective learning**.

**We offer 1 year after course support** – you can get your doubts cleared and seek clinical opinion from course faculty for your implant cases.

### **We follow step by step approach:**

- Didactics/Lectures (focused on building clinical concepts),
- Hands on training for - implant placement on models & suturing exercises
- Implant Planning on CBCT
- Demonstration of Implant case on patient with step by step explanation
- Assistance on Implant cases
- Independent Implant Placements by Course Participants under one to one faculty supervision
